Professional Summary

Results-driven Developer with years of experience in software development, data analysis, and automation. Adept at writing clean, efficient code, developing scalable applications, and integrating data-driven solutions. Passionate about problem-solving and continuous learning.

Skills

- **Programming Languages:** SQL, JavaScript
- **Frameworks & Libraries:** Django, Flask, Pandas, NumPy, TensorFlow
- **Tools & Technologies:** Git, Docker, AWS, PostgreSQL, REST APIs
- **Development Methodologies:** Agile, Scrum, Test-Driven Development (TDD)
- **Other:** Data Analysis, Web Scraping, Automation, Machine Learning

Professional Experience

Developer

Mercedes Benz – City, State | 2019 – 2024

- Developed and maintained web applications using Django, and Flask, improving application performance by 30%.
- Designed and optimized SQL queries, reducing database query execution time by 40%.
- Implemented automation scripts for data processing, saving 20+ hours of manual work per week.
- Utilized Pandas and NumPy for data analysis, providing insights that improved business decision-making.

Software Engineer

TCS – City, State | 2016 – 2019

- Created and maintained ETL pipelines for data warehousing solutions.
- Developed web scraping scripts to collect and process real-time data from multiple sources.
- Deployed applications on AWS, utilizing services like EC2, S3, and Lambda for scalability.
- Assisted in machine learning model development for predictive analytics using TensorFlow.

Education

Bachelor of Science in Computer Science

University Name – Year of Graduation

Certifications

- Data Science and Machine Learning – [Institution]
